

Disrupt Your Limits.®

CAN CHICKENS FLY?

NO. NOT REALLY

Height

Eagle

Chicken

Distance

**Domestication and easy living
has taken away the modern
chickens ability to fly. On the
other hand, the Eagle, soars to
great heights and distances.**

**You may be a Chicken wanting to be
an Eagle but no amount of self-
motivation will allow you to soar
above 5000 feet and fly over a 100
miles, today - except, in your
Chicken dreams.**

**Focus your energy, talent and goals
on being the greatest Chicken ever
and one that has made a difference
in the world like no other.**

**Unrealistic thinking is exciting
but futile and can lead to
disappointment, stress and
depression.**

**But don't stop pushing your
Chicken limits.**

LET'S DO SOMETHING AWESOME TOGETHER.

Disrupt Your Limits.®

NOTHING TO LOSE. EVERYTHING TO GAIN.

**Book a free 30 minute
confidential consultation with
me here about soaring in your
life and career:**
